Customized Grippers Capacities up to 300 kg

There is a Custom Solution for you...

The lifting and handling of loads in working situations must run smoothly. With Quick-Lift System™ you can easily adapt lifting solutions after the conditions of your company, thanks to our built-in functionalities.

Our design team will develop a custom handle solution that when integrated with the Quick-Lift System™, it meets the highest standards of ergonomics, working environment, safety and efficiency.

No matter what type of object you are trying to lift, a custom gripper can be designed through one of several different types of lifting methods.

Lifting Object

Crates | Materials | Automotive | Glass | Cardboard | Food
Machine Parts | Pallets | Sheet Metal | Coils

Lifting Methods

Magnet | Vacuum | Clamping | Expander | Scissors | Hook
