

TITAN GRABBER

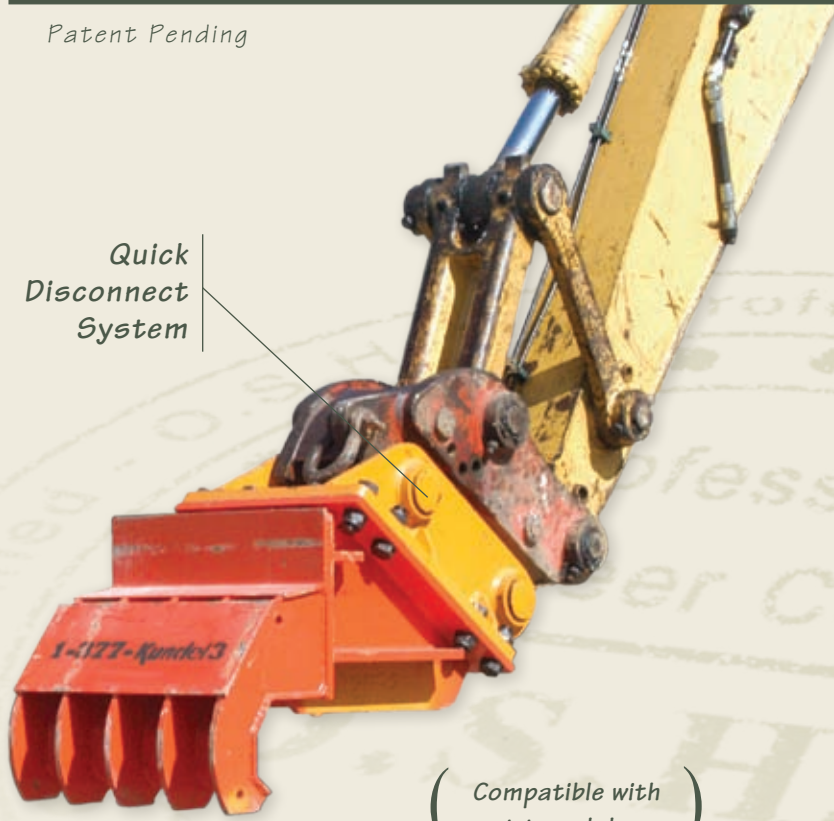

Manufactured by

Kundel®

est. 1987

Patent Pending

Quick
Disconnect
System

(Compatible with
most trench boxes.)

WORK SAFER

With the Titan Grabber: moving, setting and positioning of a trench box has never been easier or safer. The quick disconnect system will keep your job moving. If production time is a concern on your job, the Titan Grabber is the solution. No more chains, no more risking injury to 2 to 3 workers or fighting to position the trench box. Excavate the trench to grade, connect the Titan Grabber to your excavator and get back to work.

Innovative Design & Engineering

Safe Way To Lift

No Middle Man Required

Designed With The Operator In Mind

Trench Box And Excavator Become One

Secure Hook-ups

TITAN GRABBER - Quickly and Easily INSERT ~ ROLL ~ LIFT and SET

Grab the trench box by simply inserting and rotating the Grabber in-between the back two spreaders, then lift the Box and insert it into the trench. Safely stack boxes for deeper trenches! No helpers are needed.
